

# So you want to play piano?

Learning piano can be one of the most rewarding experiences. Use this helpful reference card to begin matching piano keys to note names and their staff positions. **You'll be playing music in no time!**

## HOW TO USE THIS REFERENCE CARD

1. Print the card on standard 8.5 x 11 inch paper at 100% size to accommodate most pianos/keyboards. **IMPORTANT:** If using a PC, in the print dialog box, make sure to choose Page Sizing = Actual size. If using a Mac, Page Scaling = None.
2. Fold the printout in half to insert behind the keys, or on each of the dotted lines to create a standing tent (use a piece of tape if you need it).
3. Align the card on your piano keyboard, beginning with **middle C**.
